Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 4-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Gannaway(U.S.Pat.3,934,967). Gannaway discloses a refrigeration compressor and system that shows all the features of the claimed invention including a sealed housing with an internal refrigerant passage 30, a cylinder bore 38, a motor 65, a drive mechanism 45, first second chambers in the housing (abstract and col. 1 line 1 – col. 2 line 20), pistons 39, a wobbler 42, and an external refrigerant passages 74, 75 and 67, 66.

Allowable Subject Matter

Claims 8-11 and 14-16 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record neither teaches or suggests a compressor for compressing a refrigerant as claimed comprised of a housing with two chambers and an intermediate chamber connecting the chambers and a first internal conduit, a first internal refrigerant path, and a second internal conduit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Fujii, Hirasawa, Ota, Yokomachi, and Ahn are cited to show structure similar to the claimed invention.
